

Israel Fernandez

(831) 392-7549  israelfernandez96@gmail.com  github.com/iFernandez96  linkedin.com/in/iFernandez96

SKILLS

C	Git	Python	SQL	Firebase	GitHub	MATLAB
C++	Svelte	SvelteKit	HMTL	CSS	JavaScript	YAML
Java	C#	JUnit	NodeJS	Lua	Shell	ARM

WORK EXPERIENCE

Apple - *Hardware Systems Software Engineer (Contract via Sasken Technologies)* **Cupertino, CA**
May 2025 – Current

- Collaborate globally with others daily to design and finish projects with firm deadlines
- Full-time contractor contributing to system-level software and tooling in a high-scale production environment (NDA-bound work)
- Built/maintained automation and diagnostics to improve developer workflows and reliability across services/hardware
- Partnered with cross-functional engineers to triage low-level bugs and ship fixes under tight timelines. Tech: C/C++, Python, Linux, Git, Shell, Lua, YAML, MATLAB

Gantz-Mountain Intelligence Automation Systems (Startup) - *Systems and Software Engineer* **Monterey, CA**
Feb 2016 – Jul 2024

- Work with others to design and finish numerous projects with strict deadlines and demo to customers
- Design, implement and program efficient algorithms that were critical to company success
- Used TRM and component schematics for systems debugging and development
- Collaborated with the Electrical Engineering team to diagnose thermal issues using specialized instrumentation; improved hardware efficiency by 15% and reduced cooling costs by 20%
- Led Linux kernel development and integration of new drivers into proprietary hardware
- Responsible for Linux RTOS, bare-metal, and OS compiling for proprietary hardware
- Integrated 3rd party hardware into company systems, enhancing functionality
- Demonstrated computer vision algorithms using TensorFlow Lite in Python to customers
- Programmed and implemented low-level network drivers for Linux embedded systems and proprietary communications protocols
- Mentored interns in developing and testing computer vision algorithms from MATLAB to C implementations
- Designed and implemented efficient algorithms that increased computer vision processing performance by 40%
- Designed, programmed, implemented, and maintained proprietary software

Naval Postgraduate School - *Computer Science Intern & STEM Intern* **Monterey, CA**
Jan 2015 – Feb 2016

- Assisted with Linux systems documentation and setting up virtual machines
- Developed and organized lesson plans to teach Computer Science concepts to underrepresented youths.

EDUCATION

California State University Monterey Bay - *Graduated May 2025 with Honor's* **Monterey, CA**

- B.S. Computer Science
- Relevant Coursework: Software Design, Intro to Computer Networks, Reasoning with Logic, Design Analysis of Algorithms, Intro to Database Systems, Introduction to Data Science, Internet Programming

Monterey Peninsula College - *Graduated Dec 2023* **Monterey, CA**

- A.S. Computer Science
- A.A. General Studies Communication and Analytical Thinking
- Relevant Coursework: Data Structures and Algorithms, Introduction to Programming, Discrete Structures, Introduction to UNIX and Linux, Network Security Fundamentals and Security+ Preparation, Computer Architecture and Organization

ADDITIONAL SKILLS

- **Tools and Platforms:** Android Studio, IntelliJ, CLion, Visual Studio, PyCharm, VMware, VirtualBox, GitHub, TensorFlow, ChatGPT, GitHub Copilot
- **Systems:** Windows, Linux, RTOS, Embedded Systems
- **Spoken Languages:** English, Spanish – *All professional proficiency or above*
- **Other:** Server Configuration and Maintenance, Computer Networking and Security

EXTRACURRICULARS

- **NASA Aerospace Scholar**
- **Competitive Programming:** Competed with CSUMB in ICPC Silicon Valley regionals 2024. Team placed 27th out of 80.
- **Cyber Security Club President:** Led club activities and initiatives.
- **Robotics Club President:** Managed club projects and competitions.
- **FRC Robotics Mentor:** Coached high school teams for the FIRST Robotics Competition.
- **FIRST Robotics Competition Achievements:** Ranked 34th out of 400 in World Championship; 2nd in Silicon Valley Regionals.
